THERAPY PHYSICS BIOLOGY

INDICES to Vol. 9 (1970)

February April June August October December

Contents of Volume 9 — THERAPY PHYSICS BIOLOGY

Clinical trials in radiotherapy and the merits of high energy protons
By S. Graffman and B. Jung 1
Dosimetry of irregular fields in cobalt 60 therapy
By I. M. Aral, D. Cail, M. Nissel and J. Spira 24
Dose distribution from intracavitary radium and supplementary external irradiation with regard to topography of lymph nodes in carcinoma of the uterine cervix
By I. Joelsson, A. Bäckström, J. Diehl and C. Lagergren 33
Whole-body measurements on the distribution of mercury 203 in humans after oral intake of methylradiomercury nitrate
By R. Falk, J. O. Snihs, L. Ekman, U. Greitz and B. Åberg 55
High energy electron beam treatment planning for betatron 10—24 MeV
By R. F. Nelson 73
Prognosis in Hodgkin's disease with special reference to histologic type — Results of treatment predominantly by cytostatics
By A. P. Andersen, H. Brincker and F. Lass 81
Efficacy of primary radiation in carcinoma of the endometrium — Preliminary study of unselected material from a specific region in the north of Sweden
By O. Kjellgren and S. S. Magnússon 102
Modification of effects of proton and gamma radiation on the rectal mucous membrane by local hypoxia
By S. Sténson 115
Telegamma therapy in carcinoma of the hypopharynx with special reference to cytologically verified metastases in the neck
By G. Werner and I. Båryd 129
International comparisons of ionization chambers for absolute measurements of the roentgen at photon energies of about 1 MeV
By A. Rakow, W. Will, M. Yudin, G. Ostromuchova, R. Kononova, A. R. S. Marsh and J. W. G. Dale 144
Pathologic effects of different doses of radiostrontium in mice — Dose effect relationship in ^{90}Sr-induced bone tumours
By A. Nilsson 155
Radiosensitivity of mediastinal lymphomas in Hodgkin's disease treated with split-course radiotherapy — A retrospective study
By T. Landberg and H. Forslo 177
Dosimetric studies of mantle fields in cobalt 60 therapy of malignant lymphomas
By Gudrun Svahn-Tapper 190
Effect of selective tumor heating on the localization of ^{131}I fibrinogen in the Walker carcinoma 256 — I — Heating by immersion in warm water
By E. S. Copeland 205

XUM

Cellular autoimmune reactions following radioiodine treatment for hyperthyroidism
By NINA EINHORN, J. WASSERMAN and T. PACKALÉN 225
Applications for remote after-loading technique for optimum pelvic dose distribution in carcinoma of the uterine cervix
By I. JOELSSON and A. BÄCKSTRÖM 233
Neutron radiation produced by the 32 MeV roentgen beam of a medical betatron
By K.-E. LÖFGREN and E. SPRING 247
Survival characteristics of mammalian cell lines after single or multiple exposure to roentgen radiation under oxic or anoxic conditions
By B. LITTBRAND 257
Contrôle dosimétrique en brachycuriethérapie par les isodoses 'escargot'
Par M. SCHLIENGER, J. C. ROSENVALD, M. MICLUTIA, R. QUINT et B. PIERQUIN . . . 282
Radiation therapy and cure in Hodgkin's disease
By K. MUSSHOFF, W. OEHLERT, W. HAMANN and A. NUSS 289
Juvenile nasopharyngeal angiofibroma — A clinical study of 69 cases
By BERTA JEREB, A. ÄNGGÅRD and I. BÅRYD 302
Evaluation of radiation treatment of painful conditions of the locomotor system — A double blind study
By I. GOLDIE, B. ROSENGREN, E. MOBERG and E. HEDELIN 311
Effect of selective tumor heating on the localization of ^{131}I fibrinogen in the Walker carcinoma 256 — II — Heating with microwaves
By E. S. COPELAND and S. M. MICHAELSON 323
Multiplication of tumor cells in vitro after oxic or anoxic exposure to roentgen radiation
By B. LITTBRAND 337
Long-term cytogenetic and clinical control of a child following intrauterine irradiation
By MARIA KUČEROVÁ 353
Effective dimensions of roentgen tube focal spots based on measurement of the modulation transfer function
By G. U. V. RAO and L. M. BATES 362
Modifying effects of cysteamine on experimental radiation lesions of the brain
By O. HASSLER 369
ICRU report to the XIIth International Congress of Radiology, Tokyo 1969 379
Histopathology of late local radiolesions in the goat brain
By B. ANDERSSON, B. LARSSON, L. LEKSELL, W. MAIR, B. REXED, P. SOURANDER and J. WENNERSTRAND 385
Instillation of thio-tepa (tifosyl) in vesical papillomatosis
By F. EDSMYR and J. BOMAN 395
Carcinoma of the larynx — Treatment mainly by primary irradiation
By K. JØRGENSEN 401
Concentration of zinc in some hard and soft tissues of rat determined by neutron activation analysis
By B. BERGMAN 420
Radiopathology of americium 241 — I — Distribution of americium in adult mice
By L. HAMMARSTRÖM and A. NILSSON 433
Roentgen ray effects on the ovaries of foetal mice
By B. HENRICSON and A. NILSSON 443
Early effects of localized single doses of ionizing radiation on human bone marrow
By S. STEFANI and A. MONTI 449

Depigmentation of hair in two strains of mice after single and fractionated doses of roentgen rays
By E. V. Hulse and L. G. Mizon 457
Carcinomes épidermoïdes de la langue mobile et du plancher buccal — Étude de 245 cas traités à l'Institut Gustave-Roussy
Par B. Pierquin, D. Chassagne, Y. Cachin, F. Baillet et F. Fournelle le Buis . . 465
Portable ^{90}Sr-^{90}Y applicator with interchangeable plastic shunt for extracorporeal blood irradiation
By H. Sköldborn, B. Rosengren, Inger Ragnhult and R. Kellgren 481
Evaluation of regional lymph drainage from mammary gland and hand to axillary nodes
By A. Hultborn, L. Hultén, B. Roos, M. Rosencrantz, B. Rosengren and Ch. Ahrén 489
Intercomparisons of absorbed dose in cobalt 60 teletherapy using mailed LiF dosimeters — II — Results for Canada and six Asian countries
By P. M. Pfalzner and S. Jayaraman 501
Objective procedure of constructing stages in cancer — Its application in recurrent carcinoma of the corpus uteri
By S. S. Kurohara and F. W. George III 513
Pathologic effects of different doses of radiostrontium in mice — Changes in the haematopoietic system
By A. Nilsson 528
Electron beam depth dose distribution evaluation
By A. Jacobson, Th. E. Banks, M. A. Ackerman, H. E. Brizel and R. M. Scott. . 545
Kilovoltage calibration of diagnostic roentgen ray generators
By J. P. Bhatnagar and G. U. V. Rao 555
Technetium 99m sulfide colloid preparation for scintigraphy of the reticuloendothelial system
By R. B. R. Persson and Y. Naversten 567
Comparative study of distribution of injected zinc 65 in the mandibular condyle and other tissues in rat as determined by gamma scintillation
By B. Bergman 577
Genetic effects of ^{90}Sr on various stages of spermatogenesis in mice
By H. Frölén 596
Radiopathology of americium 241 — II — Uptake in the developing teeth of rats
By L. Hammarström and A. Nilsson 609
Dose measurements in oesophagus in cobalt 60 rotation therapy
By A. C. McEwan and T. K. Wheeler 618
Book reviews 622
Books received 623

Subject index to Volume 9 — Therapy Physics Biology

Radiotherapy

Merits of high energy protons in radiotherapy 1
Dose distribution in carcinoma of the uterine cervix 33
High energy electron beam treatment planning 73
Prognosis in Hodgkin's disease in relation to histologic type 81
Efficacy of primary radiation in carcinoma of the endometrium 102
Modification of effects of proton and gamma radiation on the rectal mucous membrane by local hypoxia 115
Telegamma therapy in carcinoma of the hypopharynx 129
Radiosensitivity of mediastinal lymphomas in Hodgkin's disease treated with split-course radiotherapy 177
Applicators for remote after-loading technique for optimum dose distribution in carcinoma of the uterine cervix 233
Contrôle dosimétrique en brachycuriethérapie par les isodoses 'escargot' 282
Radiation therapy and cure in Hodgkin's disease 289
Juvenile nasopharyngeal angiofibroma 302
Radiation treatment of painful conditions of the locomotor system 311
Long-term cytogenetic and clinical control of a child following intrauterine irradiation 353
Carcinoma of the larynx 401
Carcinomas épidermoïdes de la langue mobile et du plancher buccal 465
^{90}Sr-^{90}Y applicator for extracorporeal blood irradiation 481
Regional lymph drainage from mammary gland and hand to axillary nodes 489
Procedure of constructing stages in recurrent carcinoma of the corpus uteri 513
Dose measurements in oesophagus in cobalt 60 rotation therapy 618

Chemotherapy

Prognosis in Hodgkin's disease in relation to histologic type 81
Thio-tepa in vesical papillomatosis 395

Radioactive isotopes

Dosimetry of irregular fields in cobalt 60 therapy 24
Dose distribution in carcinoma of the uterine cervix 33
Distribution of mercury 203 in humans after oral intake 55
Telegamma therapy in carcinoma of the hypopharynx 129
Pathologic effects of different doses of radiostrontium in mice 155
Dosimetric studies of mantle fields in cobalt 60 therapy of malignant lymphomas 190

Effect of selective tumor heating on the localization of ^{131}I fibrinogen in the Walker carcinoma 256 — I — 205
Cellular autoimmune reactions following radioiodine treatment for hyperthyroidism . . 225
Effect of selective tumor heating on the localization of ^{131}I fibrinogen in the Walker carcinoma 256 — II — 323
Concentration of zinc in rat determined by neutron activation analysis 420
Distribution of americium 241 in adult mice 433
^{90}Sr-^{90}Y applicator for extracorporeal blood irradiation 481
Regional lymph drainage from mammary gland and hand to axillary nodes 489
Intercomparisons of absorbed dose in cobalt 60 teletherapy using mailed LiF dosimeters 501
Effects of different doses of radiostrontium in mice 528
Technetium 99m sulfide colloid preparation for scintigraphy 567
Distribution of injected zinc 65 in rat as determined by gamma scintillation 577
Genetic effects of ^{90}Sr on spermatogenesis in mice 596
Uptake of americium 241 in the developing teeth of rats 609
Dose measurements in oesophagus in cobalt 60 rotation therapy 618

Radiophysics

Dosimetry of irregular fields in cobalt 60 therapy 24
Dose distribution in carcinoma of the uterine cervix 33
High energy electron beam treatment planning 73
International comparisons of ionization chambers for absolute measurements of the roentgen at photon energies of about 1 MeV 144
Dosimetric studies of mantle fields in cobalt 60 therapy of malignant lymphomas. . . . 190
Applicators for remote after-loading technique for optimum dose distribution in carcinoma of the uterine cervix 233
Neutron radiation produced by the 32 MeV roentgen beam of a medical betatron . . . 247
Contrôle dosimétrique en brachycuriethérapie par les isodoses 'escargot' 282
Effective dimensions of roentgen tube focal spots based on measurement of the modulation transfer function 362
ICRU report to the XIIth International Congress of Radiology, Tokyo 1969 379
^{90}Sr-^{90}Y applicator for extracorporeal blood irradiation 481
Intercomparisons of absorbed dose in cobalt 60 teletherapy using mailed LiF dosimeters 501
Electron beam depth dose distribution evaluation 545
Kilovoltage calibration of diagnostic roentgen ray generators 555
Dose measurements in oesophagus in cobalt 60 rotation therapy 618

Radiobiology

Distribution of mercury 203 in humans after oral intake 55
Modification of effects of proton and gamma radiation on the rectal mucous membrane by local hypoxia 115
Pathologic effects of different doses of radiostrontium in mice 155
Effect of selective tumor heating on the localization of ^{131}I fibrinogen in the Walker carcinoma 256 — I — 205

XUM

Cellular autoimmune reactions following radioiodine treatment for hyperthyroidism 225
Survival of mammalian cell lines after exposures to roentgen radiation under oxic or anoxic conditions 257
Effect of selective tumor heating on the localization of ^{131}I fibrinogen in the Walker carcinoma 256 — II — 323
Multiplication of tumor cells in vitro after oxic or anoxic exposure to roentgen radiation 337
Long-term cytogenetic and clinical control of a child following intrauterine irradiation 353
Modifying effects of cysteamine on experimental radiation lesions of the brain 369
Histopathology of late local radiolesions in the goat brain 385
Concentration of zinc in rat determined by neutron activation analysis 420
Distribution of americium 241 in adult mice 433
Roentgen rays effects on the ovaries of foetal mice 443
Early effects of single doses of ionizing radiation on human bone marrow 449
Depigmentation of hair after single and fractionated doses of roentgen rays 457
Effects of different doses of radiostrontium in mice 528
Distribution of injected zinc 65 in rat as determined by gamma scintillation 577
Genetic effects of ^{90}Sr on spermatogenesis in mice 596
Uptake of americium 241 in the developing teeth of rats 609

Radiation protection

Modification of effects of proton and gamma radiation on the rectal mucous membrane by local hypoxia 115
Modifying effects of cysteamine on experimental radiation lesions of the brain. 369

Book reviews
